For over 30 years, members of our Partners for Life (PFL) major donor program have led our community in the battle against HIV/AIDS with their generous annual financial support of life-sustaining programs and services provided by Desert AIDS Project (D.A.P.).

The D.A.P. model of patient-centered total care all under one roof includes access to basic as well as specialty medical care, dentistry, behavioral health, career counseling and placement, housing, social services, youth outreach and education, and much more. As a Federally Qualified Health Center, D.A.P. offers access to care to more than 4,000 clients annually, plus the 50 new individuals who visit our campus for the very first time every month.

As a member of PFL, the impact of your annual support is significant:

- \$1,500 provides 60 free and confidential HIV tests.
\$3,000 covers the cost of comprehensive dental visits for 10 clients.
\$6,000 provides PrEP/PEP to 12 individuals, thereby preventing the spread of HIV.
\$12,000 covers the operating expenses of our Return to Work Program for one month.
\$25,000 enables D.A.P. to CURE one person living with Hepatitis C.
