

OPENING THE DOORS TO THE FUTURE OF HEALTHCARE

The Future of Healthcare Has Arrived at Desert AIDS Project

Two New Clinics Open March 2

As part of DAP's capital campaign expansion, we are excited to welcome clients into our two new healthcare clinics, located next to our main building on the DAP campus.

These new clinics will reflect DAP's move to the Patient Centered Medical Model of Care, which has proven to greatly improve health outcomes for the communities we serve.

Starting March 2, 2020, healthcare teams will see clients in the new clinics, which we have named the Blue Clinic and the Green Clinic.

The DOCK (including Trent Broadus, Nurse Practitioner), Behavioral Health, Dentistry, and Wellness Services will remain in DAP's main building located at 1695 N Sunrise Way on the corner of Vista Chino and Sunrise Way.
